### 1. Course Description

This course aims to teach general English. It is a course for students who have a basic knowledge of the language in B1+ level. The aim of the course is to help learners to achieve an overall English language proficiency of B1+ and enhance their knowledge of English by attaining the objectives specified in Global Scale of English (GSE). It enhances four skills – reading, listening, writing and speaking through challenging tasks and thus enables students to become active and autonomous learners.

### 2. Overall Goal

The course aims to;

- encourage students to develop positive attitudes to language learning
- increase students' awareness to the cultures where English is spoken
- enable students to communicate in English confidently and clearly
- to understand how English functions as a language
- to present grammar through texts which are authentic reading and listening texts in appropriate linguistic contexts
- develop the ability to understand the target language in various registers
- enable students to comprehend and produce language in real time
- promote students' autonomy to become independent learners and take responsibility in their own learning process
- foster critical thinking and problem-solving by encouraging students to analyze and evaluate ideas, opinions, and information from diverse sources, promoting logical

reasoning and evidence-based decision-making in both written and spoken communication

- develop an understanding of cultural perspectives by comparing viewpoints, recognizing differences in communication styles, and engaging in discussions that consider the impact of culture on language use and opinion expression in both familiar and unfamiliar contexts
- promote effective communication by encouraging students to express ideas and opinions clearly, justify viewpoints with evidence, and participate in discussions that require negotiation, persuasion, and critical evaluation, ensuring clarity and cohesion in both speech and writing
- encourage learners to engage with multimedia content (videos, online exercises) to enhance language input

### **Overall Course Objectives**

By the end of Module 3 Repeat, students will be able to:

- distinguish main ideas and supporting details in structured texts, including articles, essays, and short narratives
- scan long texts and related materials to locate specific information and extract relevant details from various sources
- derive probable meanings of unfamiliar words from context and make basic inferences based on headings and titles
- produce clear and well-organized paragraphs, including topic sentences, supporting details, and concluding sentences, while effectively expressing opinions
- utilize appropriate vocabulary and grammatical structures to describe similarities and differences between ideas and concepts.
- summarize main points and themes from a variety of texts, providing accurate and coherent written summaries of both simple and complex materials
- identify and use linking words and cohesive devices to ensure logical flow and coherence in writing
- extract key factual information and main points from spoken texts, including conversations, podcasts, and narratives, recognizing speakers' feelings and attitudes
- participate in discussions by expressing opinions, justifying ideas, and responding appropriately to questions about familiar topics

- narrate personal experiences and describe events in detail using correct grammar structures accurately in both speaking and writing
- follow spoken discourse in everyday conversations and presentations, demonstrating comprehension by answering questions and providing relevant comments

### **Overall Learning Outcomes**

At the end of this module, students will:

- formulate and respond to various questions, including wh- and object questions, using appropriate grammatical structures
- utilize level-specific vocabulary to effectively communicate ideas and feelings about friendships and social interactions
- identify main ideas and supporting details in a variety of texts, including narratives and articles, while inferring meanings of unfamiliar words
- extract key information from listening tasks, such as dialogues and talks about friendships, demonstrating comprehension of gist and details
- narrate stories and describe experiences using correct grammar structures in coherent narratives
- employ correct grammar structures to discuss hypothetical situations and reflect on past experiences and their potential outcomes
- create well-structured paragraphs and an essay, including thesis statements, topic sentences, and cohesive devices to enhance clarity and coherence

### **Course Materials:**

The books will be announced at the beginning of the academic year.

M3 B1+ level Preparatory CDU Writing Booklet

Grammar, Vocabulary, Listening, Reading and Speaking Materials prepared CDU

### **Suggested Materials:**

The books will be announced at the beginning of the academic year.

### Course Hours

	MONDAY	TUESDAY	WEDNESDAY	THURSDAY	FRIDAY
09:00-09:50					
10:00-10:50					
11:00-11:50					
12:00-12:50					
13:00-13:50	<b>LUNCH</b>				
14:00-14:50					
15:00-15:50					
16:00-16:50					

### **Instructional Technologies and AI Integrated Tools**

In Module 3 Repeat of the English Preparatory Program, instructional technologies and AI-supported tools are meaningfully integrated into the curriculum to support students at the B1+ level. As part of the digital component of the coursebook, students are assigned online homework, which is graded and serves to reinforce the language input presented in class. These tasks allow students to review and practice the core content in a structured and interactive format.

All instructors actively use the institutional Learning Management System (ÖYS) to manage course content and communication. Through ÖYS, instructors share weekly resources, materials, and announcements. They can also assign homework and provide feedback on student work within the platform, allowing for organized tracking of student progress and increased accessibility of materials.

To help students prepare for the Module 3 Repeat speaking task—creating a logical response within the given scenario and giving a short talk about one of the given topics—AI-generated videos have been developed. These videos provide examples of both strong and weak performances, giving students a clear understanding of expectations. The sample videos guide students on how to organize their ideas, use basic vocabulary, and maintain fluency and coherence appropriate for their level.

To support writing and language accuracy, AI-integrated practice materials have been developed to help students strengthen their essential writing skills. These tasks, delivered through AI-supported platforms, focus on constructing stronger sentences and enhancing coherence and unity. The aim is to offer a more interactive and engaging way for students to reinforce what they've learned in class.

### **Privacy and Copyright**

Students are expected to respect copyright laws and intellectual property rights throughout their studies. As part of this commitment, students must purchase the official coursebook through the authorized publishing house. The use of pirated or photocopied versions of the coursebook is strictly discouraged, as it violates copyright regulations and undermines the integrity of the educational process. Promoting the ethical use of materials ensures fairness and supports the continued development of high-quality academic resources.
