#### My Family Members

Richard is my cousin. He's 43 years old, and he's married with two children. His son is 16, and his daughter is 12. They are both students at school. Richard is a manager in a bank. It's really a boring job, but he's a funny man.

Olivia is my grandmother. She's from Russia, but now her home is in the UK. Her house is in London. She's 98 years old, and her birthday is on March 24th.

My uncle is Rudolf. He's a musician and an artist. And his wife is a doctor in a hospital. He's from England, but his wife is American, and they live in the USA, in California. Their home is very nice!

### TEXT II

#### Sabah...The Perfect Holiday!

We are all very busy people. We work, we have families, and we go out with friends. But we sometimes need to enjoy our free time to relax.

Why not go on vacation? Sabah is a great place for a holiday. It is on the Island of Borneo. It's a very nice place to visit because there are islands, beaches, forests and animals.

If you like animals, then go to the forest. In the forests, there are some birds and other animals. The name of the forest is Rafflesia Forest Reserve. It is famous and very interesting because you can see the biggest flowers in the world there. They are very, very big.

Do you like nature? You can go to the mountains. You can be in nature, and you can go to the top of the mountain and see all the islands.

If you want to relax, you can go to the beach. There are a lot of beaches, and you can sit on the beach and look at the ocean.

You can stay in a lovely apartment near the beach. There are ten apartments, and they have a dining area, a living room, a kitchen, a bathroom, and four bedrooms. The furniture in the apartments is all new and comfortable.

Come to Sabah! Come and relax.

**Read the text and answer the following questions. You may give short answers.**

#### **Einstein**

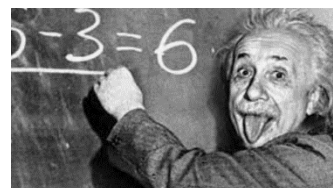

Who is the most famous scientist of all time? Who is the greatest genius? For many people, the answer is the physicist, Albert Einstein.

Einstein wasn't a child prodigy. When he was a baby, he was slow to talk. When he was nine years old, he couldn't speak well. Einstein left school when he was only fifteen. He didn't like

the classes. He preferred to study at home with books about mathematics, physics and philosophy. When he was seventeen, Einstein wanted to study at the Institute of Technology in Zurich, Switzerland, but he didn't pass the entrance examination. Einstein wasn't a good student, but his ideas changed the way we look at the world. In 1921, he won the Nobel Prize.

When he died, a doctor removed his brain to discover the secrets of his intelligence. Albert Einstein's brain was smaller than normal because he was a small person. In 1999, scientists in Canada discovered that the part of Einstein's brain responsible for mathematical calculations 15% bigger than normal. In the same year Time magazine named him 'person of the century'.
